

E8a Emulator Software Component List

(*) There is no download data or CDs of full-package version for E8a Emulator Software V.1.05 Release 02.

Even if you purchase the E8a package, the version of bundled emulator software is "E8a Emulator Software V.1.05 Release 01."

When using MCUs of H8S/Tiny Series, it is required to download and install "H8S/Tiny E8a Emulator Debugger V.1.03.01" separately.

Feb. 5, 2013
