
PRODUCT CHANGE NOTICE

Manufacturing Site Change for Assembly of the Listed Intersil TSSOP Packaged Products

**Refer to:
PCN11113**

Date: November 1, 2011

November 1, 2011

To: Our Valued Intersil Customer

Subject: **Manufacturing Site Change for Assembly of the Listed Intersil TSSOP Packaged Products – Carsem-M (CAM) - Ipoh, Malaysia**

This notice is to inform you that Intersil is changing the manufacturing site used for assembly of the listed TSSOP (Thin Shrink Small Outline Package) products. The assembly subcontractor, Carsem, is consolidating TSSOP assembly operations from its Carsem-S (CAS) facility to the Carsem-M (CAM) facility during Q4 2011. This action will expand current capabilities and capacities to optimize Intersil's ability to meet customer's delivery requirements. The product and site-specific qualification activities are complete.

The Carsem-M (CAM) facility is ISO 9001:2008 and ISO/TS 16949:2009 certified and currently qualified as a supplier to Intersil for assembly of the TSSOP packaged products. There will be no change in the moisture sensitivity level (MSL), mold compound, bond wire size/material, or package outline drawing (POD). The qualified material set combinations are as follows:

Material Set	Current (CAS Site)	New (CAM Site)
Mold Compound	Sumitomo EME-G700L	
Die Attach	Ablebond A8290, A8200C, and 84-1LMISR4	Ablebond A8290 and 84-1LMISR4
Bond Wire	1.0, 1.2, and 1.3 mil Gold (Au)	
Lead Frame Layout	C7025 Matrix	C7025 High Density

The assembly qualification plan was designed using JEDEC and other applicable industry standards to confirm there is no impact to form, fit, function, or interchangeability of the product. A summary of the qualification results are included for reference. The remainder of the manufacturing operations (wafer fabrication, package level electrical testing, shipment, etc.) will continue to be processed to previously established conditions and systems.

Product affected by this change is identifiable via Intersil's internal traceability system. In addition, product assembled at CAM may also be identified by the assembly site code (country of assembly) when marked on the devices. The assembly site code for the CAM facility is "G".

Intersil will take all necessary actions to conform to agreed upon customer requirements and to ensure the continued high quality and reliability of Intersil products being supplied. Customers may expect to receive product assembled at CAM beginning *ninety* days from the date of this notification or upon depletion of existing material.

If you have concerns with this change notice, Intersil must hear from you promptly. Please contact the nearest Intersil Sales Office or call the Intersil Corporate line at 1-888-468-3774, in the United States, or 1-321-724-7143 outside of the United States.

Regards,

Jon Brewster
Intersil Corporation
