

RENESAS TECHNICAL UPDATE

1753, Shimonumabe, Nakahara-ku, Kawasaki-shi, Kanagawa 211-8668 Japan
 Renesas Electronics Corporation

Product Category	Diodes		Document No.	TN-WDI-A003A/E	Rev.	1.00
Title	Matter for Joint portion of Glass Diode taping		Information Category	Packing Change		
Applicable Product	All Glass Diodes	Lot No.	Reference Document			
		All lots				

As for above issue, glass diode is now using 2 types in parallel. But from now on we will make a joint portion between two tapes and apply it to taping process for productivity improvement.

Thus we would like to announce a joint portion as below picture. It will be occur in a reel.

1 Tape maker

Type A ----- Color: Cathode => sky-blue Anode=> White

Type B ----- Color: Cathode => Navy-blue Anode=> dark-White

2 Contents: Joint portion will be changed the color

Example for 52mm axial taping

3 Characteristics, reliability.

It will not affect to other characteristics, reliability.

4 Change schedule

As of Sep. 2011, it will be adopted step by step.
