Rev.1.00

RI850V4 V2 Real-time OS for the RH850 Family V2.01.01

Jun. 16, 2016

Outline

We are revising the real-time OS RI840V4 V2 for the RH850 Family of MCUs from V2.01.00 to V2.01.01.

1. Description of Revision

Support for the following series of the RH850 Family

- RH850/E1x series RH850/E1M-S2

2. Updating and Ordering

2.1 Updating

When you are using the RI850V4 V2, online updating will be available free of charge.

This service will be available from July 5.

Select All Programs → Renesas Electronics CS+ from the start menu of Windows to start the update manager, and then proceed with updating.

2.2 Ordering

To check the prices or order the product, contact your local Renesas Electronics marketing office or distributor with the following information.

- Product name: RI850V4 V2
- Model names for ordering: RTRRH8500TR01w*

*: The letter w denotes the type of license. It is replaced with the desired string from among those listed below.

For example, the model name for ordering a license to mass-product a product with this OS without limit but where the customer will not require the source code will be RTRRH8500TR01RRRUU.

| Type | Terms of agreement |
|-------|--|
| ERR | Evaluation license , installable on one host computer |
| ERRLU | Evaluation license , no limit on number of host computers for installation |
| RRRUL | Mass-production license allowing embedding in up to 3,000 devices, without the source code |
| RRRUU | Mass-production license unlimited embedding, without the source code |
| SRRUU | Mass-production license unlimited embedding, with the source code |

3. Trial Version

We are revising the trial version from V2.01.00 to V2.01.01.

The program will be available from June 20.
