
PRODUCT ADVISORY

Alternate Marking Method for Intersil TO-Can Packaged Products

**Refer to:
PA10098**

Date: October 21, 2010

October 21, 2010

To: Our Valued Intersil Customers

Subject: **Alternate Marking Method for Intersil TO-Can Packaged Products**

This advisory is to inform you that Intersil is implementing a laser etch (brand) process as an alternate method for marking of TO-Can packaged products. The advantages of laser branding include improved marking permanency, legibility, and reduced cycle time in support of customer delivery requirements. The laser branding will not affect the form, fit, function, reliability, or interchangeability of the product. Examples of ink and laser marked devices are included on the next page for reference.

Products affected:

HA2-2510/883	HA2-5002-5	IS2-1009RH/PROTO	5962-8954801GC
