

RA Ecosystem Partner Solution

M13DESIGN / M13-RA6M3-EK

RA6M3 Evaluation Board

Solution Summary

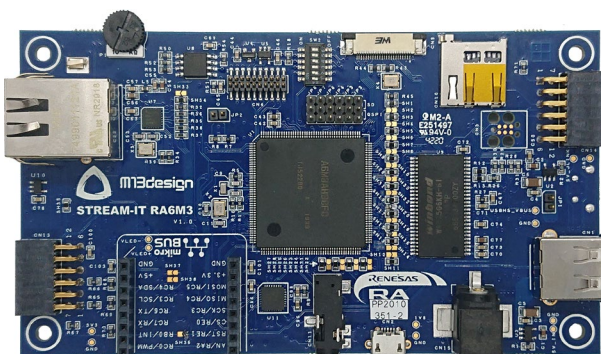

The **M13-RA6M3-EK** is a complete evaluation and development hardware platform for the Renesas Electronics® based RA6M3 Cortex®-M4 R7FA6M3AH3CFC microcontroller including a wide range of features such as Ethernet, Audio Codec and many more.

Features/Benefits

- R7FA6M3AH3CFC MCU (LQFP176)
- Graphic features
 - 4.3-inch 480x272 TFT LCD with cap. touch panel
 - 8bit camera Interface
- On-Board debugger: Jink OB with SWD & VCOM capability
- LAN Interface (RMII)
- USB Interface (Hi-Speed & Full Speed)
- Expansion connectors: MikroBUS™ & PMOD™
- And many more on-board features to discover...
