This notice is to inform you that Renesas will begin using CAS facility for the Listed Renesas Power Quad Flat No Lead (PQFN) packaged products.

Reason for Change:

Adding CAS as alternate test site will expand current capabilities and capacities to optimize Renesas’s ability to meet customer’s delivery requirements. CAS facility is ISO9001:2015 and IATF 16949:2016 certified.

Impact on fit, form, function, quality & reliability:

The change will have no impact on the form, fit, function, quality, reliability and environmental compliance of the devices.

- Renesas supplied test software and product specific hardware were used at CAS.
- The test equipment validation involved the testing of control units and a correlation lot of ISL99390* at current and new test site (CAS) respectively.
 - Control units were tested at the current test site and retested at CAS. Their performance were recorded and the results were analyzed to validate the setup.
 - Continuous monitoring and comparison of the data from lots processed at both sites were completed by the responsible product engineer.
- The visual / mechanical inspection, tape & reel operations are compliance to JEDEC industry standards.

Product Identification:

Product affected by this change is identifiable via Renesas’s internal traceability system.
