Program Creation Screen of Renesas' New CubeSuite+

The image shows a screenshot of the Renesas CubeSuite+ software interface. The interface includes a menu bar (File, Edit, View, Project, Build, Debug, Tool, Window, Help), a toolbar, a Project Tree on the left, a Property window, a Call Graph window, and a main workspace. A pie chart in the Call Graph window shows execution time percentages for various functions: main [1.57%], .M00 [0.45%], func1 [4.58%], func2 [7.04%], func1a [0.86%], and func2a [55.00%]. The text 'CubeSuite+' is prominently displayed in the center. Three callouts are overlaid on the image: an orange circle labeled 'Easy' at the top, a blue circle labeled 'convenience' at the bottom left, and a green circle labeled 'confidence' at the bottom right. Yellow lines connect these callouts to various parts of the software interface.

Easy

convenience

confidence

Execution Time(Percent...)

Function	Percentage
main	1.57%
.M00	0.45%
func1	4.58%
func2	7.04%
func1a	0.86%
func2a	55.00%
